

FED AND SLED CAPABILITIES STATEMENT

What Does BlackHawk Data do?

BlackHawk Data is a leading multi-vendor solutions and services provider for the federal government (FED), state and local government, and education (SLED) markets. We specialize in providing best-of-breed technology solutions and services that meet the unique needs of our customers, no matter the size of the organization. Our team of expert solution architects and engineers have decades of experience designing, deploying, and managing the most advanced IT solutions, enabling our FED and SLED customers to improve processes, meet compliance standards and bridge communication gaps.

What Makes BlackHawk Data Different?

At BlackHawk Data, we believe the combined expertise of our teams and our strong relationships with key vendor partners enable us to build the most innovative and imaginative next-generation network platforms and services. With more than a decade of experience supporting the FED and SLED markets, our team understands the value of closing projects on time and on budget. Our engineers offer a focused approach to managing every project and gaining an in-depth understanding of each environment to deliver to best solutions and services.

What We Deliver

- High-touch services
- 10+ years supporting the FED and SLED markets
- In-depth understanding of contract management
- Commitment to completing projects on time and on budget
- Full managed services offerings
- Superior technical engineering abilities

Core Competencies & Services

Networking	Services	Security	Data Center
