

BLACKHAWK DATA ENTERPRISE CAPABILITIES STATEMENT

What Does BlackHawk Data do?

BlackHawk Data is a leading multi-vendor solutions and services provider for Enterprise businesses. We specialize in providing best-of-breed technology solutions and services that meet the unique needs of our customers, no matter the size of the organization.

Our team of expert solution architects and engineers have decades of experience designing, deploying, and managing the most advanced IT solutions, enabling our Enterprise customers to improve processes, meet compliance standards and bridge communication gaps.

What Makes BlackHawk Data Different?

At BlackHawk Data, we believe the combined expertise of our teams and our strong relationships with key vendor partners enable us to build the most innovative and imaginative next-generation network platforms and services.

With more than a decade of experience supporting the Enterprise market, our team understands the value of closing projects on time and on budget. Our engineers offer a focused approach to managing every project and gaining an in-depth understanding of each environment to deliver to best solutions and services.

What we Deliver

- High-touch services
- Decades of experience
- Vendor-agnostic expertise
- End-to-end managed services
- Superior technical engineering abilities

Competencies & Solutions

Enterprise Networking	Internet of Things (IoT)	Voice & Collaboration	Data Center
Mobility	Audio Visual	Cyber Security	Compute & Storage
Automation	Physical Security	Risk Management	Analytics, Assurance & Security
Optical Transport/ DWDM	Application & DNS Load Balancing	Identity Management	Hyper-converged Infrastructure
Virtualization	Network Infrastructure	Compliance & Audit	Hybrid Cloud

BlackHawk Data LLC

“ Design. Deliver. SecureIT.”

(SALES) 877-456-4295 - (NOC) 866-424-3662

14 Penn Plaza, 225 West 34th Street
9th Floor, New York, NY, 10122

Engineering Certifications

- Cisco CCIE Route Switch
- Cisco CCIE Data Center
- Cisco CCIE Collaboration
- Cisco CCNP Wireless
- Cisco CCNP Route Switch
- Cisco CCDA Route Switch
- Fortinet NSE
- Palo Alto PSE Platform Associate
- VMware Solutions Provider Engineer
- Microsoft Certified Professional
- F5 Big-IP Administrator
- EMC SSP - Information Storage and Management
- EMC SAN Storage Administrator Specialist

End-to-End Managed Services

Proactive 24x7x365 monitoring & management

- Data Center
- Network Infrastructure
- Cyber Security
- Voice & Unified Collaboration
- Mobility
- Audio Visual
- Physical Security
- Desktop Support

Network & Security Optimization

Decades of experience in providing a holistic assessment approach for optimization

- Utilize a non-invasive network TAP
- Review current traffic patterns
- Analyze protocols and refine
- Deliver automation best practices
- Examine policy evaluations
- Provide meaningful actionable report
- Optimize current infrastructure
